▶ Introduction

Benson Security Systems (BSS), a proud member of the Benson Group of Companies, is a Tanzanian based company specializing in Digital security systems. Providing end-to-end solutions, BSS focuses in providing state of the art technologies in surveillance systems, Biometric access control systems, home security and much more.

The foundation of BSS is conceptualized around the most basic of needs—Security. The standard defense against security concerns includes guards, fences and so on – in essence all mechanical systems. Relying on purely mechanical systems can lead to colossal security failures. This is where digital security systems come in to a league of their own. Digital systems overcome the inherent limitations of mechanical systems and ensure complete peace of mind.

BSS merges local security threats with foreign R and D to ensure ultimate effectiveness against security threats. With strong partners/suppliers across the globe, coupled with rigorous quality control standards - BSS guarantees superior products.

At BSS, we believe attaining perfection is a process. Having good quality products is essential. However, product selection and correct installation are what makes the entire solution complete – this is what BSS staff are trained to do. Our staff are professionally trained to identify security threats and recommend the right solution. BSS prides itself in service deliverance by providing the best in back up customer support

BSS excels in empowering its customers to take control of their security measures by adding fingertip convenience and integrating BSS products with everyday technologies.

With BSS solutions we urge you to relax and TAKE CONTROL!

Vision:

To be the preferred supplier and integrator of innovative digital security systems by providing high quality, reliable products and services to our clientele.

Mission:

Empowering people to take control!

Corporate Governance:

BSS upholds the highest levels of integrity, commitment and professionalism. BSS advocates high ethical standards and aims to be recognized as the benchmark in the security industry

Why Us?

Digital systems are readily available and can be relatively easy to install. What BSS provides is a unique buying experience coupled with sincere and expert advise on product selection, professional installation and prompt back up service. We pride ourselves in providing the best back up support in the industry. Our aim is to provide clients with control over their own personal security...it is a motto we live by!

Affiliations:

Benson Security Systems Limited is affiliated with various partners/branches around East Africa. Our presence pans the East African region with partners in Uganda, South Sudan, Rwanda, Burundi and Kenya.

Within one year of operations, BSS has taken big strides in placing itself strategically over Tanzania with a branch office in Arusha under the banner of Benson Security Systems and is poised to opening branches in Zanzibar, Mwanza and Mtwara.

The list above is not exhaustive, we constantly strive to bring you innovative, multi-featured products. Since personal security is a sensitive issue, we endeavor in providing bespoke solutions as per client requirements. Therefore, with BSS its not a matter of making do with what we have, it's about providing you with what you require!

▶ CCTV Surveillance

Protect your home and business with high-resolution surveillance cameras from Benson Security Systems. Record on a full time basis or on motion (every time there is movement) and playback events at will. You can also view your cameras remotely using your Cell phone, tablet or PC. Benefits of CCTV:

01. Prevent Theft and Illicit activities
02. Protect Employees
03. Maintain Records and back up of events
04. Aid local authorities
05. Receive Email alerts when motion is detected after office hours

Dome Camera

Bullet Camera

PTZ Camera

Remote Viewing

▶ Intruder Detection Systems

Intruder Alarm Systems are the most common form of security. Benson Security Systems are authorized partners for MAMI alarm systems and authorized to sell PIMA and Visonic products. Intruder Alarm Systems can be integrated with various sensors making them the most comprehensive form of security available. Benefits of Alarm Systems:

01. Deter possible intrusion by audible and visual alerting options
02. Instant notification to first response team via radio or SMS text message
03. Scalable solution allowing for installation of additional sensors when required

▶ Access Control

Say goodbye to keys and hello to Keyless Entry.

Access control systems are effective systems when it comes to restricting access in the office environment. Benefits of Access Control:

01. Restrict unauthorized Access
02. Track entry/exit of personnel
03. Allow restricted access to the work place after office hours
04. Eliminate key problems – duplications, jams, etc

Facial Recognition

Fingerprint

Access Card

Pincode

▶ Time and Attendance

A time and attendance system is a way for your organization to save money and eliminate the frustrations of a manual process. Increase efficiency, manage labor costs and maximize profits by implementing an electronic, integrated time and attendance system. Benefits of Time and Attendance Systems:

01. Reduce inherent problems with manual systems
02. Eradicate shadow employees
03. Increase efficiency and productivity
04. Save money with accurate overtime calculations
05. Increase employee satisfaction

▶ Automatic Gates & Barriers

Improve security at your residence/business by automating your gate. As sole authorized dealers of Nice Hansa, we can convert any gate into an automated one. Benefits of Gate Automation:

01. Open/Close gate from the comfort of your own home/vehicle
02. Reduce Gate opening times
03. Solar panel and battery back up ensures that your gates are always operating
04. Integrate with intercoms, beams and other access control devices
05. Provides security for children and pets

Swing Gate

Barriers

Sliding Gate

▶ Electric Fences

Electric Fences are now a common non-lethal effective barrier protection system for most households and businesses. Benson Security Systems are authorized partners for the JVA brand.

01. Effective physical and psychological barrier against intruders
02. Integrate with existing alarms systems
03. Durable and easy to maintain
04. Add sensor switches to automatically adjust sensitivity
05. Zoning provides information on attempted point of entry

▶ Turnstiles and Bollards

Effective crowd control is essential when it comes to certain types of businesses. Turnstiles offer an effective solution for employee management and crowd movement especially in super markets, large factories and the like.

Rising or fixed bollards are the ultimate solution in vehicle barriers. The main benefit of rising bollards is that they operate even in the event of a vehicle knocking into them. Operated automatically, bollards can be programmed to allow certain vehicles at allocated times to ensure effective vehicle control

Turnstiles

Turnstiles

Rising Bollard

Fixed Bollard

▶ Smoke Cloak

The first in Tanzania, the Smoke Cloak is a revolutionary product for the high-end market. It works on a very simple concept: If you can't see it, you can't steal it! The smoke cloak unit blows out dense harmless fog to reduce visibility and in essence sets a "cloak" over items/personnel that need to be protected from intruders. Coupled with the smoke cloak, customized light strobes can also be added to ensure the intruders are completely disoriented increasing the possibility of capture.

▶ Hotel Management Solution and Point of Sale

As authorized partners of Rance Lab, Benson Security Systems provide an effective and affordable point of sale solution. Whether it be for a restaurant, retail outlet or hotel, we've got a complete solution to ensure that you are always in control of your business.

01. Inbuilt Accounting, Payroll and bar coding package
02. **Fusion Resto:** Complete software for restaurants
03. **Fusion Retail:** An end to end solution for single or multiple retail outlets
04. **Fusion Property Management:** A complete standalone hotel management system
05. **Fusion Mobi:** Access your business from anywhere using your cell phone, PC or tablet
06. Effective report allowing you to make informed decisions
